SIPI Student Survey Day

Southwestern Indian Polytechnic Institute (SIPI)

On **Wednesday, April 10, 2019**, a collaboration of SIPI, the University of New Mexico and Community Health Leaders joined together to give a survey to the student body. The survey was in regards to their opinion and importance of making the **SIPI campus 100% commercial tobacco free**. Students were asked their history with commercial tobacco products, their thoughts about the campus being completely tobacco free, and if they believed their health was at risk by being exposed to secondhand smoke. The completion of surveys and results will be presented to SIPI administration with the help of tobacco free advocate and instructor, Jolene Aguilar.

Stay tuned for more SIPI tobacco free updates!
