TAKE ACTION: Host A Cleanup

Did you know that there are millions of cigarette butts that are thrown out on sidewalks, parks, benches, and other public places. In addition, there are 27 million pounds of pesticides used and millions of trees that are chopped down to grow tobacco. If you think about it, that is over one billion pounds of waste!

Make change in your community and join [Truth Initiative](#) to do a cleanup of commercial tobacco waste. This will include cigarette butts and electronic cigarette waste. Begin today, by requesting a cleanup kit by clicking [HERE](#). This toolkit will include: 5 ziploc style bags, 5 pairs of disposable gloves, and an instruction card. If you would like more supplies, email activism@thetruth.com for your event.

Remember, you don't need to organize a group to make an impact in your community. You can pick up trash and tobacco waste anytime!

Smoke Free Signals Traditional Tobacco Education and Awareness Initiative

Smoke Free Signals would like to announce the launch of the Smoke Free Signals Traditional Tobacco Education and Awareness Initiative. The Smoke Free Signals program developed numerous tribally focused designs and imagery that are aimed in an ongoing effort to share awareness of the sacred use of traditional tobacco and the harms of commercial tobacco. The third series of designs will be printed on items like stickers. The items will be shared with tribal community health representatives, school health programs, and other tribal health programs.

If your health organization or program is interested in a sample kit, request and email Josiah Concho at JConcho@keresnm.com.
